FIRECREST® 303 CARBON CLINCHER

LONG DISTANCE RUNNER

In its March issue, **RoadBIKE** Magazine (Germany) tested the Zipp 303 Firecrest Carbon Clincher wheelset.

THE BEST QUOTES

“One look on the figures of the new 303 Carbon Clinchers is enough to awaken **‘wanna-have’ instincts** within road racers.”

“Going downhill they follow the orders of their testers precisely.”

(The Firecrest’s wide rim) “results in a wheel with **consistently smooth cornering and rolling behavior.**”

“Braking on the carbon rims including with the SwissStop gray brake pad manufactured for Zipp was straight under even wet conditions. **The pads grabbed, tempered well and were easy to modulate.**”

“With its outstanding rim shape, **Zipp manages the balancing act with the 303 between aerodynamic design and high comfort... The set gave a strong overall performance all-round.**”

RoadBIKE (Germany) - March 2012

HIGHLIGHT:

- + Good “roller”
- + High comfort
- + Very stiff, precise handling
